

20th July 2005

**Old Toys Wanted for Double World Champion Razer
at The Mall's Robogeddon Roadshow Challenge 2005
The Ultimate Robot Combat Tournament**

Youngsters are invited to bring their old toys along to The Mall at Cribbs Causeway on Tuesday 9th August to allow the double world champion robot Razer to show off its formidable skills and weaponry. Razer will be making his first live performance in Bristol at The Mall's Robogeddon Roadshow Challenge, which runs from Monday 8th to Friday 19th August.

Razer, who appears on TV shows Robot Wars and Battlebots, is a fantastic feat of engineering and design. Weighing in at 97 kilos, Razer is over a metre long, travels up to 10 miles per hour, pulls wheelies and uses its self-righting wings to flip itself back into action at the first sign of trouble. It's instantly recognisable trademark 'claw' delivers three tonnes of piercing/crushing pressure at its tip, while its ramming blade and piercing tail can flip enemy bots to their doom.

Razer is looking forward to doing battle with any toys or equipment that are broken or no longer wanted, from dolls to children's garden tractors, much to the delight of the children! He can also take on old vacuum cleaners, pallets and other portable items.

The Roadshow features four 70kg Cyber Raptor robots. You don't need any previous experience of roboteering to take part in the Challenge - just turn up outside Boots, next to the children's play area between 11am and 7pm, take the controls of one of the robots and score as many points as you can in a two minute battle with three other fearsome 'Raptors'.

You can play as many times as you like to improve your score and increase your chances of winning a place in the grand final tournament. Each game costs £2.

Check out www.robogeddon.com for more details.
